Education

APJ Abdul Kalam Technical University — Trivandrum,Kerala
Bachelor of Technology in Computer Science — *2022-2026*

Holy Angel's Convent HSS — Trivandrum,Kerala
Higher Secondary Education — *2020-2022*

Experience

Join Secretary (Full-Time) — June 2022 – Present
Computer Society of India - MCET Chapter — *Trivandrum,Kerala*

- Organized and coordinated technical events, workshops, and seminars under CSI at MCET
- Managed communications, registrations, and documentation for multiple technical programs.
- Exhibited strong leadership, teamwork, and organizational skills with a proactive work ethic

Data Analytics (Intern) — Nov 2025 – Dec 2025
Codec Technologies — *Chandivali IT Hub,Mumbai*

- Selected as a Project Intern at a global IT and business consulting organisation
- Engaged in data analytics–focused project work and hands-on training under assigned Project Heads
- Gained industry-level exposure to analytics tools, reporting, and problem-solving tasks.

Python Developer (Intern) — Feb 2025 –April 2025
Marklance Infotech Pvt Ltd — *Kochi,Kerala*

- Gained hands- on experience in web development through structured learning
- Developed Python-based modules and implemented backend logic to support ongoing project requirements.
- Contributed to a live project, collaborating with the team on real-world development activities and deliverables

Projects

NeuroHome-BCI Smart Home Automation | *Python,Arduino,IoT,EEG Signal Processing* — Sep 2025 – Present

- Designed a Brain-Computer Interface (BCI) system enabling hands-free control of home appliances for users with physical impairments.
- Processed EEG signals to interpret user intentions and trigger automation commands accurately.
- Integrated IoT modules to ensure reliable wireless communication between the BCI device and home appliances.

SafeWalk – AI-Powered Smart Cane | *Raspberry Pi,Arduino,AI,IoT,Python* — Jun 2025 – Aug 2025

- Developed an intelligent cane capable of detecting obstacles using AI-based image and sensor analysis.
- Implemented real-time voice-guided navigation to assist visually impaired users during mobility.
- Combined IoT components and embedded systems to create a portable and efficient assistive device.

TourMate – Tour Packages Management Website | *Django,HTML,CSS,JavaScript* — Jun 2024 – Aug 2024

- Developed a full-stack web application that allows users to browse, book, and manage tour packages with a streamlined and user-friendly interface.
- Implemented admin features for adding packages, updating details, managing bookings, and tracking customer information.
- Added secure login, responsive design, and dynamic page rendering to provide a smooth user experience.

Technical Skills

Languages: Python,Java, C, SQL, JavaScript, HTML/CSS
Frameworks: React, Node.js, Flask, WordPress,Python Framework,Django,AngularJS
Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ,Excel, EclipseGit,Arduino,Raspberry Pi,Debugging
Libraries: pandas, NumPy, Matplotlib,AI,ML,IOT
Domains:AI ,ML ,Data Analyst,IoT,Web Design,Software Development,Web Development,Tech Support,Team Leadership,Creative Thinking,Teaching Expertise,Video,Content Creation,Innovation, Project Ideation
